Forecast for Sunday 20 Feb 2022

Weather: Wet and windy with periods of heavy rain making underfoot conditions very difficult, but there could be a drier spell in the morning. Perhaps some very heavy rain for a time in afternoon and stormy too and rain turning to sleet or snow over the tops before clearing towards dusk. A few clear spells in the evening, but with occasional blustery, wintry showers and blizzard conditions possible.

Chance of cloud-free hill tops above 600m: Little chance for much of the day, but 25% over far eastern hills, rising to around 70% after dark

Low cloud and visibility: Moderate or poor beneath cloud much of the day, but very good in evening, though quickly lowering to a kilometre or less in wintry showers and near zero in blizzard conditions. Very poor visibility at height for much of the day, with persistent cloud above 450-600m and patches below across western hills, but occasionally broken above 600m in the east and becoming scattered or broken 500-800m after dark.

Forecast for Monday 21 Feb 2022

Weather: Cloudy and windy overnight with showers merging to longer spells of rain or snow, but snow level lifting to the summits by the morning. Then a cloudy, wet and windy start with occasionally heavy rain and summit snow but this will die out through the morning and cloud will lift and break in afternoon, with some lengthy spells of sunshine before dark. Then clear periods in evening but high cloud increasing from the west.

Maximum wind: Westerly, turning northwesterly in morning, 40-50mph, with gusts around 75mph over ridges and summits. Gradually easing 20-30 gusts 40mph through the afternoon and becoming west or southwesterly in evening.

Chance of cloud-free hill tops above 600m: 20%, becoming 70% by the afternoon.

Low cloud and visibility: Mainly good or very good but sometimes poor in precipitation and very poor at height where in cloud, this rather extensive for much of the morning, above 500 or 600m, but occasionally lower in rain, becoming scattered to broken above 600-800m by the afternoon.

Temperature: **Valleys:** Plus 3 or 4 C at first rising to plus 11 C
At 600m: Minus 2 C rising to plus 3 C
Freezing level: 300m in early hours, but 800m by morning
